Gate EC 2008 (Problem 29)

$P_x(x) = Me^{-2|x|} + Ne^{-3|x|}$ is the probability density function for the real random variable X, Over the entire x axis. M and N are both positive real numbers. Find The equation relating M and N

Solution 29

$P_x(x) \geq 0$
Since $\int_{-\infty}^{\infty} P_x(x)\,dx = 1$

$\int_{-\infty}^{\infty}(Me^{-2|x|} + Ne^{-3|x|})\,dx = 1$

$2\int_{0}^{\infty}(Me^{-2|x|} + Ne^{-3|x|})\,dx = 1$

$2\int_{0}^{\infty}(Me^{-2x} + Ne^{-3x})\,dx = 1$

$2(M\frac{e^{-2x}}{-2} + N\frac{e^{-3x}}{-3})\Big|_0^{\infty}\,dx = 1$

$2(0 - (\frac{M}{-2} + \frac{N}{-3})) = 1$

$2(\frac{M}{2} + \frac{N}{3}) = 1$

$M + \frac{2N}{3} = 1$
